

### Introduction

Responsible Suppliers are required to make payment for the following:

- Responsible Supplier registration or renewal

**Note:** no payment is required for ACMA Only Responsible Suppliers

- Equipment registration or renewal

There are two payment options available in the EESS Platform:

- BPoint which requires credit card details, or
- BPAY – the EESS Platform provides the Biller Code and payment details which are essential to process the payment with the Responsible Supplier's bank

For equipment registration or renewal:

- the payment is added to the Payment Cart. This feature enables the user to continue registering or renewing equipment and manage the processing of payments via the Payment Cart
- the user can make the payment themselves or transfer this task to someone else within the Responsible Supplier organisation who has a user account in the EESS Platform and who is authorised to make payments (e.g. credit card holder)

#### **Note:**

- A Responsible Supplier registering for the first time is not yet in the system. The Payment Cart is not available at this point however, you can still use BPoint or BPAY to make payment (noting the registration isn't complete until payment is made so no other actions, such as equipment registrations or inviting other users from your business, can occur until this payment is finalised)
- A Responsible Supplier registration renewal payment made can be added to the Payment Cart by the Authorised Officer
- The payment cart feature is available for equipment registrations (new and renewed). The payment cart feature for certificate applications is coming soon
- See [Learning Guides](#) for:
  - Setting up your business on the EESS Platform - NEW RESPONSIBLE SUPPLIER explains the steps for making this payment
  - Equipment Registration steps prior to adding the payment to the Payment Cart

# Payment Cart

Once an Equipment Registration (or Renewal) payment has been added to the Payment Cart

A message appears which displays

- the case ID number
- A payment cart number (PCxxxx)

You can click on the payment cart number to go to the payment details, or you can access the Payment Cart via the Navigation menu. The case ID number will help to track the payment in the Payment Cart

The Payment Cart has three buttons:

- Current Payment Cart – for active payment cases
- Historical Payment Cart – payment cases completed
- Legacy Registration Payments – a record of payments you had completed in the legacy registration database

Payment Cases

Payment cart feature is currently only for equipment registrations. The payment cart feature for certificate applications is coming soon!
